

TESTBOY TV 5300

4-channel thermometer

Incl. 2 measuring clamps

With the TV 5300, Testboy GmbH has launched a handy four-channel temperature measuring instrument for the heating industry. A very easy to read and large backlit LC display shows a temperature range from -200 °C to 1372 °C. It supports measurements in Cel-sius, Kelvin and Fahrenheit and displays the data as minimum/maximum and average. The TV 5300 has four connection options for K-type probes to measure the flow and return of heating pipes. Testboy supplies two K-type probes and two pipe contact probes in the robust hard case. Handy and easy to operate.

Your Benefits

- > Measure 4 channels simultaneously
- > Flow and return temperature at a glance
- > Simple operability
